Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 Budgeted financial statements

3.1.1 Differences between entity resourcing and financial statements

The PBO does not have any material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

Budgeted comprehensive income statement

Under the net cash appropriation framework, the PBO receives an appropriation to meet budgeted expenses (except depreciation). This appropriation is recognised as revenue.

The PBO received a special appropriation at the time of its establishment. The special appropriation is recognised as revenue in the year the funds are spent. The associated expense is recognised in the comprehensive income statement except where the PBO has purchased assets, which are recognised in the balance sheet.

The increase in Revenue from Government in 2021–22 reflects a triennial increase in the PBO's departmental appropriation, enabling the PBO to respond to increased demand for services in line with the general election cycle.

The PBO's budgeted operating loss in 2021–22 and across the forward estimates is entirely attributable to depreciation.

The PBO has sufficient cash reserves to fund provisions and payables as they fall due across the forward estimates period.

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.
