Description of policy	
Summary of policy (as applicable, please attach copies of relevant policy documents):	Double the annual funding provided for the Indigenous Ranger program and extend funding commitments to 15 year contracts.
What is the purpose or intention of the policy?	Environmental and social benefits (as reflected in the Working for our Country report) by increasing the number of Indigenous Ranger groups.
What are the key assumptions that have been made in the policy, including:	
Is the policy part of a package? If yes, list the components and interactions with proposed or existing policies.	-
Where relevant, is funding for the policy to be demand driven or a capped amount? If a capped amount, are the costs of administering the policy to be included within the capped amount or additional to the capped amount?	The funding increase is a capped amount.
Will third parties (for instance the States/Territories) have a role in funding or delivering the policy? If yes, is the Australian Government contribution capped, with additional costs to be met by third parties, or is another funding formula envisaged?	Indigenous ranger groups involve organisations with community groups in remote communities. The Australian Government contribution is the main funding source.
